

Timeliness Tips for Yellowknife Ladies Golf

- When on the course, the first person that is ready should hit. That goes for the tee box as well.
- Keep the team in front within your sights. If you cannot see the team ahead, your team may need to speed up.
- Be aware of how much time you spend looking for lost balls in the rocks or woods. Use less than two minutes to search. The ball will likely be an unplayable lie even if found so don't be afraid to declare a ball lost.
- Don't wait in the cart for your partner. Drop her off, go to your ball and get ready for your shot. If you want to leave the cart, take a couple clubs and start walking.
- Don't mark every putt. If you have a two-footer or your team is trying to save some time, go ahead and have a player continue putting out. Don't rush your putt though!
- If one player squanders just 30 seconds per hole, that's nine minutes per round.
